

CONVERGE UNDERWRITING

Commercial Submission Intake Sheet

A high-level record of the business: how it is structured, what it does, what it owns and what it stands to lose. It does not decide which cover the business needs, and it does not price anything. Both of those happen after this sheet is submitted.

How to complete this sheet

This sheet records **what the business is and what it has**. It deliberately does not ask which cover sections apply. Working that out is the job of the assessment that follows, and it does it better with a full picture of the business than with a broker's advance guess.

Parts B to F cover the five places a commercial risk usually lives: the premises, the assets, the money, the vehicles, and the people and what they do. **Part G is for anything the business has or does that none of those five capture**. Use it - an unusual exposure recorded in plain words there is worth more than a full page of ticks elsewhere.

- 1 **Answer every question. A blank is worse than a "No".** An unanswered question is not read as "not relevant". It is read as *this fact is missing and someone must go and find it*, and the submission comes back to you with a query attached. An explicit "No" or "None" closes a question permanently.
- 2 **Write negatives out in full.** Not a blank, not a dash. *"The business owns no vehicles and none are used for business purposes."* One clear sentence settles it.
- 3 **Where prose is asked for, write complete sentences.** Every risk observation drawn from this sheet has to quote your words back, word for word, as its evidence. A fragment produces a weak observation. A complete sentence produces a defensible one.
- 4 **Never guess, and never round a fact into place.** If you do not know, write **"Not known - to confirm with client"**. That is a genuinely useful answer, because it surfaces as a gap to be closed. A guess that reads as fact is the one input that produces a confident wrong result.
- 5 **Do not state premiums or rates.** Sums insured and values at risk are wanted, because they establish what is exposed. Pricing is not, and is disregarded.
- 6 **Attach rather than summarise.** Where a document already exists - vehicle schedule, asset register, claims history, lease, previous policy schedule - attach it and tick it off on the last page. An attachment beats a retyped summary.

WEAK

Hot work: yes

Cannot be quoted as evidence of anything. It will come back to you as a question.

STRONG

Welding and angle-grinding are carried out daily in the workshop bay, roughly three metres from the paint and solvent store, with no fire blanket or screen between them.

This is the finding, already written. Nothing has to be chased.

Identity and structure

Registered name Mr Jan Smuts	Trading name, if different XYZ Shoes	Registration number 2017/01253/23
Industry or trade Industry	VAT number, if registered 502435614	Years trading, this ownership Nine
Locations traded from 125 Jan Smuts Road, Jacob	Related or associated companies None	Principals, partners or directors Mr Jan Smuts

Turnover, last full year R 12000000	Gross profit, last full year R 3600000	Annual wage and salary bill R 4000000	Average debtors outstanding R 0
---	--	---	---

What it does

What the business actually does. Four or five sentences in plain language: what it makes, sells or services, who its customers are, and how the money is earned. Write it as though explaining the business to someone who has never heard of it. **This is the single most important answer on the sheet** - most of what follows is read in its light.

XYZ Shoes is a shoe manufacturing plant that manufacturers specific designed shoes for retail by major stores.

How it operates. Trading hours, seasonality, whether the premises are occupied outside business hours, whether work happens away from the premises, and anything unusual about how or when it runs.

Plant runs on a 24 hour shift with annual shut down in December

What the business depends on to keep trading. A single location, one supplier, one large customer, one machine, one route in. Name whatever it could not quickly do without.

Their customers and minimal machinery breakdown

PART B

Premises

One block per location. If the business trades from more than one, copy this page.

Physical address

125 Jan Smuts Road, Jacob

Location number

1

Of how many

1

Owner or tenant

☒ Owner ☐ Tenant

If tenant, who insures the structure

☐ Landlord
☐ Insured
☐ Not known

Rent payable, or receivable if let

R

Year built, approximately

1995

Construction - walls

Brick

Construction - roof

Corrugated iron

Occupied outside trading hours

☒ Yes ☐ No

Glass: shopfront, mirrors, signage

None

Protections in place

Fire extinguishers, and last serviced

Yes, serviced Feb 2026

Hose reels, sprinklers

☒ Hose reels
☐ Sprinklers
☐ Neither

Fire alarm, and monitored

☐ Alarm
☐ Monitored
☒ None

Electrical CoC current, and dated

No

Burglar bars

☐ All ☐ Partial
☒ None

Burglar alarm, armed response

☐ Alarm
☒ Response
☐ Neither

CCTV, recordings retained

☒ CCTV
☐ Retained
☐ Neither

Perimeter, gates, guarding

Yes

What happens at these premises, and what is next door. The activity carried on here, and the occupancies immediately adjoining on both sides. A neighbour's trade can matter more than your own.

Manufacturing of shoes. To the left a Auto mechanic and to the right Bakery

Condition, and anything outstanding. Roof, electrical reticulation, plumbing, and any known defect, deferred repair or unresolved municipal or compliance issue.

None

PART C

Assets and values at risk

What the business owns or is responsible for, and what it is worth. Enter a value against everything that exists and write "None" against anything that does not. An empty line reads as unanswered, not as nil. Anything that does not fit these classes goes in Part G.

ASSET CLASS	VALUE AT RISK	WHAT IT CONSISTS OF
Buildings, if owned or insured by the business	R30000000	Consists of 3 floors
Plant, machinery and equipment	R10000000	All machinery and equipment
Stock in trade, average	R5000000	Leather, material and consumables
Stock in trade, peak, and which month	0	Not applicable
Contents, furniture and fittings	R3000000	Desks, chairs, filing cabinets, canteen equipment
Electronic equipment, fixed	R250000	Computers, printers, CCTV, PABX, etc.
Electronic equipment, portable	R80 000	4 x Laptops at R20 000 each
Tools and equipment taken off-site	R0	
Goods in transit, maximum on one vehicle	R200 000	
Other people's property in the business's care	None	

Records and data

Business records kept

☒ Electronic
☐ Paper ☐ Both

Backups

☐ None ☐ On-site
☒ Off-site

Backup frequency

Daily

Servers on site, how many

One

Hazardous materials, processes or substances held or used. Flammable liquids, gases, solvents, paints, chemicals, dust-producing processes, ovens, kilns, heat treatment, refrigeration plant, hot work such as welding or grinding. State what, roughly how much, where it is kept relative to the working area, and how often the hot work happens. If there is none, write that.

Flammable liquids and chemicals

The most portable or attractive items on site, and roughly what they are worth.

Laptop - R20 000

PART D

Money and financial controls

If the business handles no cash at all, say so plainly and leave the amounts blank. **The controls questions still apply** - they are about who can move money, not about cash.

Cash held and moved

Maximum cash on premises, trading hours

R 10000

Maximum cash on premises, overnight

R 10000

Maximum single carry to or from the bank

R 10000

Frequency of banking

Monthly

Who does the banking

☒ Employee ☐ Owner
☐ CIT service

Safe: make, grade, anchored

None

Who can move money

Employees with access to funds or payments

Finance Manager

Payments authorised by two people

☐ Yes ☒ No

Who performs bank reconciliations

Accountant

Reconciler differs from the payer

☒ Yes ☐ No

Independent audit or bookkeeper

Yes

Stock counted independently of its controller

☒ Yes ☐ No

Employees reference-checked on hire

☒ Yes ☐ No

Credit extended to customers

☒ Yes ☐ No

Debtors outstanding at any time

R 2000000

How cash and payments move through the business, described as a sequence. Who takes it, in what, by what route, who signs it off, and whether anyone outside the business could know the pattern.

Any past incident of employee dishonesty, theft or fraud, whether or not it was claimed or reported. This matters more than any control listed above. If there has been none, write that.

All transactions done off internet banking app

PART E

Vehicles and transport

If the business uses no vehicles at all, write that here and leave the rest blank. **If a vehicle schedule exists, attach it** and write "See attached schedule" rather than retyping it.

REGISTRATION OR DESCRIPTION

TYPE

YEAR

VALUE

See attached schedule

Types in the fleet

☐ Cars
 ☒ LDVs
 ☒ Trucks
 ☒ Trailers
 ☐ Buses
 ☐ Motorcycles
 ☒ Forklifts
☐ Plant such as excavators or cranes

Nominated drivers, how many

None

Drivers under 25, how many

None

Licence checks performed on hire

☒ Yes
 ☐ No

Yes - Various

Where vehicles are kept overnight

At premises

Employees drive own vehicles on business

☒ Yes
 ☐ No

Goods or passengers carried for reward

☐ Yes
 ☒ No

Goods left loaded in a vehicle overnight

No

Other people's vehicles

Takes custody of customers' vehicles

☐ Yes
 ☒ No

Maximum on site at once

Total value of those vehicles

R

Driven on public roads by the business

☐ Yes
 ☐ No

Where they are kept

☐ Locked workshop
 ☐ Open yard
 ☐ Street

Who is permitted to drive them

What the vehicles are used for, and where they go. Typical journeys, distances, what is carried, and whether any of it is a known theft target.

PART F

People, activities and third parties

People

Employees, permanent	Employees, casual or seasonal	Subcontractors used	If so, carry their own liability cover
120	20	☐ Yes ☒ No	☐ Yes ☐ No ☐ Not known

What the people actually do during a working day, and any part of it carrying a physical risk - machinery, working at height, road travel, hazardous substances, lone working.

Machinist, drivers and admin staff

Contact with third parties

Public enter the premises, how many a day	Business works at customers' premises	Food or beverages supplied
Yes - 5	☐ Yes ☒ No	☐ Yes ☒ No
Manufactures, assembles, repairs or supplies goods	Goods exported, and where to	Professional advice or design given
Manufacturers	No	☒ Yes ☐ No
Off-site work involving heights, excavation, hot work or heavy lifting	If yes, what and how often	
☐ Yes ☒ No		

The realistic worst-case injury or damage the business could cause to someone else, and what is in place to prevent it.

None

PART G**Anything the five sections above do not cover**

Parts B to F cover the premises, the assets, the money, the vehicles, and the people. **This page is for everything else.**

A commercial business almost always has something that does not fit a standard category, and it is very often the thing that matters most. Machinery in transit between sites, an exhibition stand, livestock, a marine or aviation exposure, a cyber or data exposure, a leased asset someone else insures, a contractual liability the business has taken on, an unusual storage arrangement, seasonal equipment, intellectual property, work carried out abroad. **If it is worth money, could be lost, or could cause a loss, list it here.**

WHAT IT IS	VALUE, IF ANY	WHY IT MATTERS, AND WHERE IT SITS
None		

Anything else an underwriter would want to know. Write it in plain sentences rather than trying to fit it to a category. Contractual obligations the business has accepted, an exposure that only appears at certain times of year, a change in the business since it was last insured, a plan that will change the risk soon, or anything the person completing this sheet is uneasy about.

Nothing further

If nothing applies, write "Nothing further" on the first line above rather than leaving the page blank. A blank page reads as unfinished.

PART H

Insurance and loss history

Currently insured

☒ Yes ☐ No

Current insurer and policy number

Alianz

Continuously insured for how long

9 years

Ever declined, cancelled or given special terms

☐ Yes ☒ No

If yes: which insurer, when, and why

All losses in the last 5 years, whether or not they were claimed. Uninsured and unclaimed losses matter as much as claimed ones, and a business that quietly absorbed a loss tells you more than one that claimed. If there have been none, write that in the first row.

DATE	WHAT HAPPENED	AMOUNT	CLAIMED	WHAT CHANGED AFTERWARDS
None				

PART I**Attachments and declaration****Attachments provided**

- | | | |
|--|--|---|
| ☐ Previous policy schedule | ☐ Claims history or loss runs | ☒ Vehicle schedule |
| ☐ Asset register or valuation | ☐ Lease agreement | ☐ Electrical Certificate of Compliance |
| ☐ Photographs of the premises | ☐ Financial statements | ☐ Other, listed below |

Other attachments

Declaration

Recorded as given by the prospective policyholder. Facts not known at the time of completion are marked "**Not known - to confirm with client**" rather than estimated. Where a document was attached in place of a written answer, it is listed above.
